

INTERVENTIONAL PAIN CARE L.L.C.

DR. SURESH KRISHNAN, MD, A.B.A
Anesthesiologist and Pain Management Specialist

Providing treatment with injections and physical therapy as a combination, along with bio-feedback therapy, will go a long way in providing a drug free and a better quality of life.

Patients coming to the clinic are usually referred by their Primary care physicians and other specialists. Self-referred patients can also be seen at the clinic but will need to be under the care of a Primary care physician.

If persistent pain is interfering with your lifestyle, we can help. Our team of caregivers has received advanced training in pain management. We work together across multiple healthcare disciplines to help manage your care. We assess your condition, discuss treatment options and build a plan that is right for you. Do not live with your pain, treat it and manage it.
